and Office of Continuing Professional Development in Medicine and Public Health

Dr. David T. Uehling was born and raised outside Chicago, and completed his urology training at Northwestern. Following a successful stint as a fellow at Chicago Children's Memorial Hospital, he joined the staff at the University of Wisconsin in 1965. Clinically, Dr. Uehling developed a statewide practice in pediatric urology, and has served the children of Wisconsin admirably for 40 years.

Throughout his career, Dr. Uehling distinguished himself in research, with continuous NIH funding in the treatment of urinary tract infections. In 1983, Dr. Uehling assumed the chair of the division at UW, and has grown the program into one of national standing. Upon stepping down as chairman in 2001, Dr. Uehling continues to serve the Department of Urology as an Emeritus Professor. Dr. Uehling has impacted the lives of many patients, urologists and scientists throughout the world. This meeting in his honor is a small way to emphasize all of his accomplishments.

State of the Art Regenerative Medicine and Update in Pediatric Urology

INTENDED AUDIENCE

This educational activity is intended for urologists and other interested health care professionals.

OBJECTIVES

At the conclusion of this activity, participants will be able to:

- Explain the diagnosis and management of hydronephrosis
- Recognize continent diversion in children
- Discuss simple and complex clinical problems in pediatric urology
- Discuss regenerative medicine and research in urology

PRACTICE GAPS AND ASSESSMENT OF NEED

The content of this educational activity was selected to match identified gaps between current practices and best practices. The overall objective of this activity is to discuss these practice gaps and provide participants with the knowledge, skills, tools, and resources needed to change their professional practice and improve the care of their patients.

ELEMENTS OF COMPETENCE

This CME activity has been designed to change learner competency and focuses on the American Board of Medical Specialties areas of patient care and medical knowledge.
