Inflammation, Infection, and the Future of Urology

INTENDED AUDIENCE

This educational activity is intended for urologists and other health care professionals interested in infectious and inflammatory processes of the genitourinary tract and urological education.

OBJECTIVES

At the conclusion of this activity, participants will be able to:

- Describe the work up and management of pediatric and adult urinary tract infections
- Recall the roles of infection, inflammation, and sex steroids in the pathogenesis of benign prostatic hyperplasia and prostatitis
- Summarize dietary and behavioral strategies for pelvic wellness and urological health
- Recognize infectious and inflammatory causes of male infertility
- Identify the current structure of urological education and the projected demands for urological care

PRACTICE GAPS AND ASSESSMENT OF NEED

The content of this educational activity was selected to match identified gaps between current practices and best practices.

The overall objective of this activity is to discuss these practice gaps and provide participants with the knowledge, skills, tools and resources needed to change their professional practice and improve the care of their patients.

ELEMENTS OF COMPETENCE

This CME activity has been designed to change learner competence and focuses on the American Board of Medical Specialties areas of medical knowledge, patient care and procedural skills.

Dr. David T. Uehling was born and raised outside Chicago, and completed his urology training at Northwestern. Following a successful stint as a fellow at Chicago Children's Memorial Hospital, he joined the staff at the University of Wisconsin in 1965. Clinically, Dr. Uehling developed a statewide practice in pediatric urology, and served the children of Wisconsin admirably for 40 years.

Throughout his career, Dr. Uehling distinguished himself in research, with continuous NIH funding in the treatment of urinary tract infections. In 1983, Dr. Uehling assumed the chair of the division at UW, and has grown the program into one of national standing. Since stepping down as chairman in 2001, Dr. Uehling continues to serve the Department of Urology as an Emeritus Professor. Dr. Uehling has impacted the lives of many patients, urologists and scientists throughout the world. This meeting in his honor is a small way to emphasize all of his accomplishments.
