UPDATES IN PEDIATRIC UROLOGY: A MULTI-DISCIPLINARY FORUM

INTENDED AUDIENCE

This educational activity is intended for urologists, nephrologists, pediatricians and other health care professionals interested in the management of several pediatric urology disorders.

OBJECTIVES

At the conclusion of this activity, participants will be able to:

- Outline when referrals or consults are indicated to related specialties who share care of patients with renal insufficiency (nephrology), constipation (GI), and neurogenic bladder (neurosurgery)
- Explain the appropriate workup and treatment of Wilms' tumor
- Summarize current outcomes and surgical technique in bladder exstrophy repair

PRACTICE GAPS AND ASSESSMENT OF NEED

The content of this educational activity was selected to match identified gaps between current practices and best practices. The overall objective of this activity is to discuss these practice gaps and provide participants with the knowledge, skills, tools, and resources needed to change their professional practice and improve the care of their patients.

ELEMENTS OF COMPETENCE

This CE activity has been designed to change learner competence and focuses on the American Board of Medical Specialties areas of medical knowledge and patient care and procedural skills.

Dr. David T. Uehling was born and raised outside of Chicago. He completed his urology training at Northwestern University and a fellowship at Chicago Children's Memorial Hospital. In 1965, he joined the staff at the University of Wisconsin. Clinically, Dr. Uehling developed a statewide practice in pediatric urology and served the children of Wisconsin for 40 years. From a research perspective, Dr. Uehling distinguished himself with continuous NIH funding in the treatment of urinary tract infections.

Dr. Uehling assumed the chair of the urology division at the UW in 1983 and grew the program into one of national standing. Since stepping down as chairman in 2001, Dr. Uehling has continued to serve the Department of Urology as an Emeritus Professor. He has impacted the lives of many patients, urologists, and scientists throughout the world. This meeting was established in his honor as a way to emphasize his great accomplishments.
